PROFESSIONAL SUMMARY

B.Tech Computer Science student focused on Software Development and Full-Stack Engineering, with hands-on experience delivering responsive web applications, Python backends, REST APIs, AI-enabled products, real-time multiplayer features, and low-code business applications. Experienced with React, Next.js, Flask, TypeScript, PostgreSQL, MongoDB, Firebase, Docker, Supabase, and Pega App Studio, with a focus on scalable application architecture, clean implementation, API integration, and end-to-end feature delivery.

EDUCATION

Amity University Madhya Pradesh B.Tech in Computer Science Engineering | Minor in Cyber Security | CGPA: 7.79 | Final Year
Senior Secondary (12th), CBSE 69.8%
Secondary (10th), CBSE 70.8%

PROFESSIONAL EXPERIENCE

Application Development Intern - Pega National Internship Program (NIP) Pega Platform *Aug 4, 2026 - Sep 4, 2026*

- Developed a Movie Ticket Management application on Pega App Studio using Pega Blueprint, modeling an end-to-end booking workflow.
- Implemented show availability, seat management, ticket requests, booking cost calculation, approvals, booking execution, and ticket/seat allocation.
- Configured confirmation email notifications, SLA goals and deadlines, and show-type-based work-queue routing within the Pega low-code environment.

Web Development Intern | Edunet Foundation - AICTE Collaboration *Aug 21, 2025 - Sep 30, 2025 6 weeks, Virtual*

- Developed and debugged responsive web interfaces using HTML, CSS, and JavaScript while applying modern front-end and UI/UX practices.
- Collaborated with virtual team members and delivered assigned development tasks within defined internship timelines.

PROJECTS

FINMATE AI Python, Flask, React.js, MySQL, LLMs, RAG

- Created an AI-powered financial intelligence platform that transforms financial data and documents into structured, actionable insights.
- Integrated Retrieval-Augmented Generation (RAG) and intelligent document processing for contextual analysis of unstructured financial information.
- Engineered Python and Flask backend workflows and an AI Advisor for personalized, decision-oriented financial guidance and data-driven recommendations.

ARENA - Sports Quiz Platform Next.js, React, TypeScript, Supabase Postgres, Realtime, Zustand, AI APIs

- Designed a sports quiz platform spanning 8 sports with solo, sprint, challenge, admin, and real-time multiplayer modes.
- Implemented Supabase Postgres with row-level security, Realtime broadcast/presence, synchronized multiplayer rooms, scoring, timers, and persistent game state using Zustand.
- Integrated multi-provider AI question synthesis and schema validation, supported by a 45-assertion automated test suite covering scoring, validation, timers, and data integrity.
- Engineered real-time voice/chat capabilities using Socket.IO, WebRTC, and Web Audio API for interactive multiplayer sessions.

Movie Ticket Management System Pega Platform, Pega App Studio, Pega Blueprint, Low-Code

- Designed a Pega case workflow covering ticket requests, show availability, approval, booking execution, and resolution.
- Automated seat and ticket handling, booking IDs, cost calculation, confirmation emails, SLA targets/deadlines, and queue routing within the Pega platform.

TECHNICAL SKILLS

Languages: Python, C, C++, JavaScript, TypeScript, SQL

Core CS: Data Structures & Algorithms, Object-Oriented Programming, Software Architecture, Operating Systems, Computer Networks

Web & Frameworks: HTML5, CSS3, Bootstrap, React.js, Next.js, Flask, Express.js, Tailwind CSS, REST APIs

Backend & Databases: PostgreSQL, MySQL, MongoDB, Firebase, Supabase, Database Design, Query Optimization

AI Applications: LLM Applications, RAG Systems, AI APIs, Prompt Engineering, Intelligent Document Processing

Low-Code Development: Pega Platform, Pega App Studio, Pega Blueprint, Pega Environment, Low-Code Application Development

Realtime & Libraries: Socket.IO, WebSockets, WebRTC, Web Audio API, Supabase Realtime, Zustand, Framer Motion

Tools & Deployment: Docker, Git, GitHub, Vercel, Render, Railway, Netlify, NPM, Postman, Pega App Studio

CERTIFICATIONS & ACHIEVEMENTS

Certifications: IBM Web Development Certification - IBM SkillsBuild (2025); Google Generative AI Certification - Simplilearn (2025); Tata Cybersecurity Analyst - Forage (2025); VOIS Data Analytics Certification - VOIS (2026).

Achievements: Participated in 4 hackathons: Smart India Hackathon (SIH) - 2023, 2025, and 2026; Winner, Amity Zync Hackathon - 2026 with FINMATE AI.
